

## Year of sheep Crafts idea

### Materials:

- Felt piece. You may choose white, antique white, cashmere tan or dark brown, black. (You can also use plush felt or fleece)
- Color foam. It should be a different color from the felt piece
- Pipe cleaner (chenille stem) 6mm x 12 in.
- Magnet sheet or strip
- Wiggly eye

### Tools:

- Scissors
- Glue

### Directions:

Print the sample parts and cut out each piece. Use the sample piece to cut the followings:

1. The sheep body from the felt. It is an oval shape.
2. The four feet from the felt. They are small rectangular shapes.
3. The background from the foam. It is a big rectangular shape.
4. The sheep's face from the foam. It is a quarter of a circle.

Glue the sheep body in the middle of the background foam. Glue the four feet below the body. Glue the face on the left side of the body with the curved edge in front. Glue the wiggly eye in the middle of the face.

Cut about 6 in. of chenille stem and make into a spiral. Glue the out side end of the spiral behind the top of the face and shape it like a ram's horn. Cut a 1.5 in. chenille stem, glue it on the other end of the sheep's body, and curve it like sheep's tail.

Add a magnet sheet or strip on the back of the background foam. You can put it on your refrigerator as a reminder of the "Year of the Sheep", or you can send it to a person who was (or will be) born in 2003, 1991, 1979, 1967, 1955, 1943, 1931, 1919 or 1907. The Chinese zodiac sign of the people, who were born in these years, is sheep.
